VIBRADIANCE™ :  
“SOUNDING THE 5 ELEMENT LANDSCAPE”  
in  
BELLISSIMA BALI!!

April 9-15, 2011\*

Come join us in Bali for a unique seminar that will provide you with training in a cutting edge treatment modality – for face, body and soul – one that embraces the vibrational aspects of Chinese medicine, while integrating the traditional 5 Element correspondences with the innovative Qi synergy of 5 Element planetary tuning forks, gem essence and custom-blended essential oils.

Using sacred geometry and Feng Shui, we will attune to our inner and outer landscapes (rhythms/cycles) with song, chant and ritual to invoke and reconnect us with the seasons, the earth and heavens (stars) in a “vibrant” dance of healing and transformation.

The seminar curriculum will include the following:

### *Seminar Details:*

The retreat center is approximately 2 hours from the Balinese capital of Denpasar, and is situated directly on the ocean; it has 8 lovely villas encircling the swimming pool. The nearby village is called Umeanyar, which means "little rice". This land is sacred and magical, and comes complete with a resident holy man, 3 temples, an ancient papula tree (used in mask carving), and over 220 herbs that can be found growing on the property.

The area itself is called "Kundalini" (based upon the Siddah traditions), and provides an idyllic setting – both soporific and euphoric – a perfect place to "be" and to transform!!
