

III. THE TRANSCENDENT FACE

In this Soundscapes *piece de resistance*, we will add the archetypes of Chiron, Nibiru, Sedna, the 4 asteroids and the high frequency planets into our vibrational facial palette. These new resonances will be incorporated into a full constitutional treatment protocol along with the Earth, Moon, Sun and other planetary tuning forks. The experience of clearing cellular memory while still remaining grounded in physical form will be explored.

COURSE HIGHLIGHTS:

- 3 Treasure Gems for the face
- Chiron, the Wounded Healer: *Changing the Paradigm*
- Nibiru, the Other: *Longing for Union*
- Sedna, Healing the Planet: *A Grieving Humanity*
- Beyond Yin and Yang: *Healing the Duality*; the void
- Harmonizing the Transcendent Ones; protocols for treatment
- The Asteroids: the goddesses that make a difference
- High frequency planets: the energetics of the aura and techniques involving sacred geometry
- Facial syndromes as a vibrational manifestation of transcendent planetary disharmony
- Beyond 5 Element points; in, above and around the body
- Integration of all Soundscapes treatment protocols
- Hands-on practical evaluation
- Homework; 3 case studies for full certification
